

TRAILER LIGHTING VOLTAGE REDUCER

Part No: **LR24-12 Adaptor**

The LR24-12 Adaptor supplies +12 Volts to the trailer lighting circuits from a 12 or 24 Volt vehicle connection. This enables a 12 Volt trailer to be towed by both 12 and 24 Volt vehicles.

LR24-12 Adaptor Features:

- Allows a 12 Volt trailer to be connected to a 24 volt vehicle without changing bulbs.
- Protects vehicle electronics and fuses from trailer shorts.
- Automatically recovers from a short circuit in the trailer wiring.
- Weatherproof.

The LR24-12TPT is intended for lighting circuits only. It must not be used for any other 12 Volt requirements.

Maximum loading for the Stop circuit is 42 Watts.

Maximum loading for the Tail and Indicator circuits is 21 Watts each.
